New Virtual Machine Wizard
Select a Disk
Which disk do you want to use?
Disk
Create a new virtual disk
A virtual disk is composed of one or more files on the host file system, which will appear as a single hard disk to the guest operating system. Virtual disks can easily be copied or moved on the same host or between hosts.
Use an existing virtual disk
Choose this option to reuse a previously configured disk.
Use a physical disk (for advanced users)
Choose this option to give the virtual machine direct access to a local hard disk. Requires administrator privileges.

New Virtual Machine Wizard
Specify Disk Capacity
How large do you want this disk to be?
Maximum disk size (GB):
64.0
Recommended size for Windows 11 x64: 64 GB
Allocate all disk space now.
Allocating the full capacity can enhance performance but requires all of the physical disk space to be available right now. If you do not allocate all the space now, the virtual disk starts small and grows as you add data to it.
Store virtual disk as a single file
Split virtual disk into multiple files
Splitting the disk makes it easier to move the virtual machine to another computer but may reduce performance with very large disks.

Windows PE add-on for the ADK 10.1.25398.1 (Republished in January 2025)
What's new in the Windows ADK
Note:
ADK 10.1.25398.1 (Republished in January 2025) and Windows PE add-on for the ADK 10.1.25398.1 (Republished in January 2025) have been republished in January 2025 to fix the security vulnerability. There were no changes made to the composition of the kit otherwise. Make sure you install the latest version of ADK to stay most up-to-date. If you have to keep using this version of ADK, make sure you install with the new link provided in this table.
The Windows ADK 10.1.25398.1 (Republished in January 2025) and the Windows PE add-on for this ADK support the following OS releases:
Windows 11, version 23H2 and all earlier supported versions of Windows 10 and 11
Windows Server 2022
This ADK and Windows PE add-on release have the version "10.1.25398.1". This
